PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer and Digital Marketing specialist with 3+ years of experience across SEO, AI-powered marketing, e-commerce optimization, and software development. Hands-on experience building responsive web applications and production-style academic and business systems, with a strong focus on practical problem solving, AI-assisted solutions, database-driven applications, and digital growth.

WORK EXPERIENCE

Full-Stack Development Intern May 2026 - Jun 2026

Thiranex - Skill Development & Future Tech

- Completed a one-month, hands-on internship building full-stack web applications, strengthening practical skills across front-end and back-end development.
- Applied modern development workflows and best practices under a structured, verified training program (Certificate ID: THX-MAY226-7428).

Digital Marketing Manager / CMO Nov 2024 - Mar 2025

Glopixel - Karur, Tamil Nadu, India

- Led multi-channel digital marketing campaigns integrating SEO, PPC, social media, and content marketing, increasing organic traffic by 40% in 3 months and improving conversion rates by 20%.

Full-Stack Web Developer Oct 2024 - Nov 2024

Glopixel - Karur, Tamil Nadu, India

- Developed responsive web applications using HTML, CSS, and JavaScript, achieving 30% faster load times and 100% mobile compatibility.

PROJECTS

Intelligent Academic Library Management System with AI Assistant 2026 - 2027

- Designed and developed a complete desktop library platform for the PG & Research Department of Computer Science, Government Arts College (Autonomous), Karur, integrating books, students, staff, issue/return workflows, reports, backup and AI-assisted support.
- Technology stack: React, Node.js, MySQL, Electron and AI; completed in partial fulfilment of the M.Sc. Computer Science degree requirements.

Medical Shop Management System 2026

- Developed a Flask and MySQL business application for medicine management, stock tracking, customer and supplier records, purchases and day-to-day shop operations.
- Technology stack: Python, Flask and MySQL.

Transport Attendance Maintenance System 2025

- Developed a management solution for maintaining transport routes, vehicle, staff and attendance records with organized digital tracking and reporting.
- Technology focus: Web application, database, attendance management and reports.

Aarshaaz International 2025

- Developed an e-commerce concept focused on responsive product presentation, customer experience and digital growth with a mobile-first approach.
- Technology focus: Web, UI/UX, marketing and responsive design.

Empire IT Solution 2024

- Developed a professional business website concept focused on clear information architecture, responsive UI and a strong digital presence.
- Technology stack: HTML, CSS, JavaScript and UI/UX.
